THE CORSICANA SEMI-WEEKLY LIGI!T. CORSICANA, TEXAS, TUESDAY, AUGUST 10, 1926

STATE DEMOCRATIC

By Associated Press.

Aug. 9. — The Dallas. mittee this afternoon voted to certify the names of both Moody and Governor Ferguson as candidates in the run-off primary for Gover-

after A. L. Curtsin of Belton as attorney for Governor Ferguson presented a petitee to refuse to certify the name of Moody as a candidate because of alleged violations of the election laws, among which were contributions to Moody's campaign funds by R. L. Bobbett and Lee Satterwhite, candidates & representatives.

The committee refused to grant the petition holding, it is not a judicial body.

By Associated Press.

Dallas, Aug. 9.—The official canvass of the gubernatorial vote in the July 24 primary by the Democratic State Executive Committee the outskirts of town have 15c postvotes short of a majority. The announcement was made just prior to the reconvening of the committee

COTTON DUSTED FOR FLEAS SHOW BIG IMPROVEMENT

That part of his crop given sul-phur treatment during the Cham-ber of Commerce demonstration on his farm, followed, by a later dusting, has shown a big and de-cided improvement, John J. Bry-ant, well known cotton growen of the Roane community, announced

Mr. Bryant explained that the weather was somewhat unfavor-able for both dustings and under the circumstances he is very well pleased with the effects of the flea treatment.

He said that he had found only one flea in the cotton area treated during the demonstration and this same area had previously been rather heavily infested. In view of the improvement shows of the improvement shown, Bryant is continuing the use of sulphur, and as a precaution against the worm which is evident in a small way, he is mixing about 25 per cent calcium arsenate with the sulphur: Mr. Bryant said that his observation of the effect co the treated area was shared others who had occasion to look over the plot. There is some gen-eral improvement in the flea situation and this should also be taken into consideration. He had noticed some improvement in the untreated cotton.

In referring to the worms, Mr Dryant said he was watching these closely but in present numbers they were apparently not danger-ous in his locality.

Other reports reaching the Chamber of Commerce from scat-

tered areas show that the worms regiving trouble in small spots Worms in damaging numbers have been reported in areas on the Liv ingston Brothers farm four miles west of Richland. Some dusting has been done on this form with calcium arsenate and the users report that the calcium has been entirely effective and that in no worms were noticeable shortly, at tor treatment.

In event farnters of Navarr county find it necessary to fight worms with calcium arsenate one local business firm has offer ed to deliver a car load lot of thi chemical if the entire amount i contracted for at 8 1-4c per pound in small quantities. 10c per pound is considered a low price on the

CORSICANA IS MARCHING ON

Let Us Continue Keeping Step Until We Pass the 50,000 Mark

What Corsicana Is Now Doing

Through loyal, co-operative support and faith in the future of the city by a progressive people, Corsicana is carrying out the following program of activity as well as has many things to feel proud of, some of which are given below:

We are building over sixty blocks of additional paving in the city making Corsicana one of the best paved cities in Texas.

We are building another large new public school building and making improvenents and adding more rooms to other school buildings of the city.

We are putting down considerable sewerage extensions to take care of new additions and general growth of the city.

We are extending water mains and electric service to the same sections,

Have already voted bonds for additional Parks. The Have already voted bonds to Remodel the Public Library.

We have plenty of fresh water for all purposes.

We are now located in the center of a triangle of electric power houses which give sufficient electric power for all purposes.

We are contemplating the extension of the city limits.

In addition to our present large producing oil fields, there is much new leasing of land over the county for new developments that will increase activity in the oil

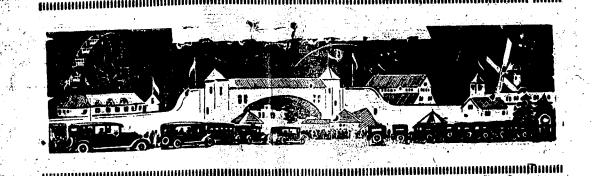

Work is to begin immediately upon the Lyman Davis' new modern ten-story office building, size 50x100 feet.

Work is to begin immediately upon the Lyman Davis' new, modern ten-story hotel building, size 50x100 ft.

There is also considerable building and general improvements being done over the city with much more to follow.

Navarro County has already made one of the largest feed crops in the history of

Navarro County has already the assurance of a very large cotton crop.

Corsical is the Logical Place for a Central Texas Fair

One of the best assets Navarro County and Central Texas can have is a modern fair plant, and the ideal location is Corsicana.

A fair plant can be built with little effort and should be organized and ready for the first exhibition by the fall of 1927. The \$5,000.00 offer for such an enterprise made some time ago by the Daily Sun and Semi-Weekly Light still holds good, and if there are nine other firms or individuals who will make similar contributions for the Fair we can soon begin building on the first \$50,000.00 unit of a hundred thousand institution, that will be a permanent fixture in the general development of the community.

Now is the time to be morrow might be too late.

such an important project—for to

We Are to Have Good Roads Eventually, Why Not Now?

The paramount necessity and he one big thing that Navarro County should do without further delay is o vote sufficient bonds to build the cardinal highways running through the county.

It is estimated a \$3,000,000.00 bond issue with State and Federal aid will construct the entire system of cadinal highways through the county, and that all out standing road bends to the fourteen good roads districts can be retired.

Many of the road districts on vote for this bond issue and not only secure the system of highways for the county but will be doing so at a low er cost than they are now paying in the present district road bonds.

Let's think the matter over ad get busy soon

What Corsicana and County Can Do

Corsicana and Navarro County have a progressive people that are looking and pushing forward.

Below are some of the important and necessary things for our future growth and development, which should be and can be done if we get in behind them. The sooner we begin the better.

Vote for a good roads bond issue of sufficient size to build all cardinal highways through Navarro County. Permanent construction

Build as soon as possible twenty-foot reinforced concrete highway to Orphans Home.

Raise sufficient money to build a Central Texas Fair Plant.

Build a Junior College.

Municipal Market Place for farmer's produce with minimal municipal or Endowed Hospital had a sold shoot matery where

Municipal Band.

Municipal Athletic Field.

Municipal Auditorium.

Automatic Safety Gates at all prominent railroad crossings for protection of hu-

Filling in of all gaps and holes in city pavement.

Build more concrete sidewalks.

Removal of telephone and electric light pole stumps from sidewalks.

Repairing of sidewalks in business section of city.

More cotton mills and other factories.

Public school stadium.

Organize City Club.

Ladies' Federated Club Building.

Widening of Eighteenth Street in front of High School building for protection school children.

Development of Corsicana as a health resort and give public benefit of the many medicinal properties of our excellent artesian water that is now being used in our new modern natatorium.

Corsicana in its marvelous growth during the past few years has much to feel proud of.

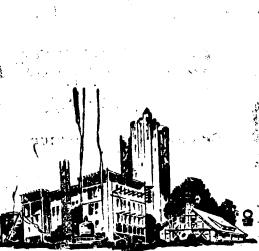

Space will not permit item

izing and emphasizing the many substantial buildings and projects that have been put over by the many progressive citizens. Such improvements are now monuments for those who have shown faith in their city.

Corsicana is Growing Fast!

Corsicana is now contracting for over one million dollars in building, and improvements with more to follow.

Corsicana is Progressive and Looking Forward

THERE IS NO SATURATION POINT FOR HONEST VALUE

Honest value is a priceless commodity. Every purchaser seeks it, but not always with complete success.

During periods of careful buying he takes unusual pains to find it, and products of inferior merit fail to attract his

Reports then circulate that the "saturation point" in the automobile market has been reached, when in reality there will NEVER be a saturation point for honest value.

During the first six months of this year, for instance, Dodge Brothers sold 207,115 motor cars and trucks. This represents a gain of 49.3 per cent over the first six months of 1925, and continues Dodge Brothers in the enviable position of THIRD IN THE INDUSTRY.

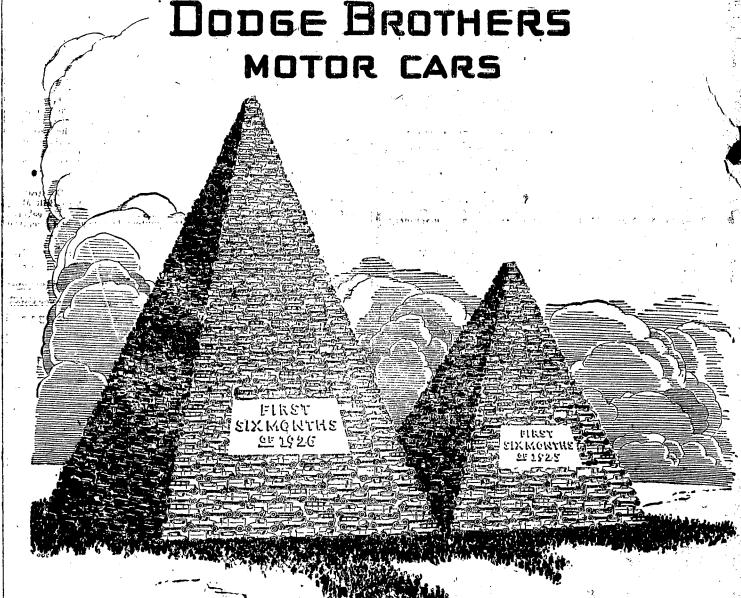

For the three weeks ending July 17th, 23,862 motor cars and trucks were delivered to customers—an increase of 62.4 per cent over the same period last year, and impressive evidence that Dodge Brothers great sales gain is continuing through the quiet weeks of mid-summer.

The more carefully people investigate and compare, detail by detail, the factors that constitute genuine motor car value, the more inevitably Dodge Brothers market expands and will continue to expand, year after year.

OLD FIRST BAPTIST CHURCH BEING TORN AWAY BY WRECKERS

STRUCTURE TWENTY-FIVE YEARS OLD HAS INTER-**ESTING HISTORY**

wrecking and removal of

the old First Baptist church at the corner of Collin and Fourteenth streets is rapidly being completed. The old church was abandoned when the new \$150,000, me church structure was completed and occupied several months ago at the corner of Collin and Fifteenth streets, on the immediate west of the old building. It was at first expected to use the old building for various activities of the church and community, but the contract was recently let for demolition and it is now stated that the lot will be used for outdoor gatherings until such time as a modern educational building may be erected there by the First

Baptist congregation. old church wrecked has an interesting hisory. It was erected in 1901, just 25 years ago, and at that time it was considered a most modern nd commodious structure for the First Baptist congregation, which for many years had worshipped in he building on Twelfth street which was later remodeled and is now being used for a house of worship by the Cumberland Pres-

yterian congregation.

During the time the First Bapist church congregation worship-ped in the structure now being depolished it grew from a few hunired souls to many times that number, and some of the leading Baptist ministers of the Southwest eld pastorates therein. The conregation made many for strides during the 25 years forward worship therein and there has been a steady advance all along be line all during those years.

The architect of the old build

ng was Charles A Logan, father of Jacqueline Logan, now one of the leading screen stars of the Inited States, who was also the erchitect and supervisor of numer ous other buildings in Corsicana there Jacqueline was born. The contractor was a Houston man. I has been stated by some of the ongrecation who were active in the milding of the old church.

The Rev. Jeff D. Ray was pas-or of the First Baptist church at he time the old church was erected and delivered the initial sernon several months ago in the new building.

The Cream of This Ad Is In the Center, Look for It.

Pangburn's Ragtime Chocolates are rapidly becoming nationally known. The reason for this is not so much the newspaper and magazine advertising as it is the superior quality of the ingredients that enter into them, and the care used in their manufacture. This causes a word of mouth advertisement that is the best kind and accounts largely for their increasing popularity.
